

ROSIE'S GARDEN BENCH

Having a place to sit and relax in your garden is something that is well-deserved. Rosie's Garden Bench will be the perfect fit for your personal escape. With the natural look of stone, it blends well with any backyard design.

Assembly

Find a solid level surface where you will enjoy your bench. Avoid wet areas.

Begin by placing 2 of the corner units 21" apart on the inside. Ensure they are sturdy and level.

Place adhesive on top of these units and place the next 2 units on top.

Exercising extreme caution place the step evenly on top allowing 4-1/2" on either end and approx. 1-1/2" on the front. Place a small amount of adhesive on the top corner units.

This step is over 500 lbs. Use machinery where feasible. If not, use no less than 4-5 strong people to lift and place the step.

Use proper lifting methods.
